I am a third-year student majoring in Computer Networks and Data Communications at the VNU University of Engineering and Technology. I consider myself a dedicated learner with a attention to detail and diligence in both academics and work. Currently, I am seeking internship opportunities to enhance my skills and gain valuable hands-on experience in the field.

Education

- 2023 — 2027 • **VNU University of Engineering and Technology.**
Major: Computer Networks and Data Communications.
Student Researcher at SATLab.
GPA: 3.51/4.0.
- 2020 — 2023 • **Ha Long High School for Gifted Students.**
Major: Physics.
Xando Model United Nations (XMUN) - Club President (2021-2022).
Third prize for excellent students at the province level in physics.

Research Experience

at SATLab

- 2026 — Ongoing • **Enhanced SAT-based Framework for Home Care Resource Allocation (HCORAP)**
Advancing the original prototype by implementing **symmetry-breaking constraints** and **incremental SAT solving** to reduce search space.
- 2025 — 2026 • **SAT-driven Optimization for Robotic Assembly Line Balancing (RALB)**
Proposed an innovative SAT-based approach to the **Robot Assembly Line Balancing** problem.

Projects

- 2025 • **Caroud | Project Manager & Solution Architect**
Spearheaded the development of a high-availability, cloud-native Caro game. **Architected** the system on **AWS** using a microservices approach to ensure scalability. Managed a team of four, overseeing the full SDLC as part of the UET Cloud Computing course.
- 2024 • **Library Management System | Frontend Developer**
Engineered an intuitive user interface using **JavaFX** and **CSS**, integrated with a **MySQL** database for efficient data persistence. Collaborated in a team of three to implement core OOP principles.

Projects (continued)

2023 • **Defend the Kingdom | Full-stack Developer**

Developed a robust 2D tower defense game from scratch using **C++** and **SDL2**. Implemented complex game logic, demonstrated advanced memory management and performance optimization techniques.

Skills

- | | |
|-------------|---|
| Coding | • C++, Python, Java |
| Databases | • MySQL, Redis |
| DevOps | • Git, Linux, Docker, Kubernetes, AWS Cloud |
| Soft Skills | • Teamwork, Problem Solving, Adaptability |

Awards and Certificates

- | | |
|------------|--|
| 2026 | • Viettel Digital Talent 2026 , Phase 1. |
| 2024, 2025 | • Scholarship for Academic Excellence , VNU-UET. |
| 2025 | • AWS Academy Cloud Foundations . |
| | • Internet of Things course , Samsung Innovation Campus. |
| 2024 | • HackerRank Certificates , Problem Solving, Java, and SQL (Basic). |
